

Evergreen Limousines Introduces One Free Hour With Eight-Hour Rental

Evergreen Limousines introduces a better way to make travel affordable. With every eight-hour limousine rental, Evergreen offers a free one-hour time extension, allowing those who are traveling to relax and enjoy a comfortable ride.

Executives and dignitaries find limousine travel to be the ideal way to get around, particularly in the greater New York City area. This method of local travel offers professionals the option of conducting important business matters while traveling, whether via the car's phone or while sharing a drink with counterparts from across town or across the Atlantic. Likewise, young people heading to the prom or a bachelorette party find limousines to be the perfect transportation for their night of fun. However, time constraints can cause stress, particularly if traffic is heavy.

Now, New York-based limousine company Evergreen Corporate Car and Limo Service offers its customers a full range of transportation services as well as a bonus: a free hour with every eight-hour rental so that customers can relax and enjoy the ride.

Evergreen New York limousines, as seen at <http://evergreenlimousine.com/New-Jersey-Limo-Service.html>, serve airport travelers, prom dates with an included non-alcoholic bar and parties of all types. Uniformed drivers are available 24 hours per day, as is the customer service and dispatch staff.
