RTA Cabinet Store offers the very best in ready-to-assemble cabinets and has built quite a following, including television stars who want great cabinets for their home improvement shows. This was the case recently with "Flipping Boston," a home renovation show on the A&E Network that features house flippers Peter Souhleris and Dave Seymour. The two experts used RTA Cabinets as part of their renovation of an Essex home.

The show featured a dilemma for the two builders as a tenant was in residence during the week-long renovation. In order to meet the demands of their investor and keep the tenant happy, the pair was forced to complete the work on a tight schedule. Using RTA Cabinets enabled them to move the kitchen portion of the renovation forward very quickly. This helped them to save time on the rest of the renovation and meet their tight deadlines as well as satisfy the demands of the investor and the tenant.

The renovation did not go as smoothly as planned, but RTA Cabinets proved as easy as ever to install. RTA is known for its high quality products.
